

# NOTICE OF OPEN HOUSE

## Northern Road Link Project

### Marten Falls First Nation and Webequie First Nation

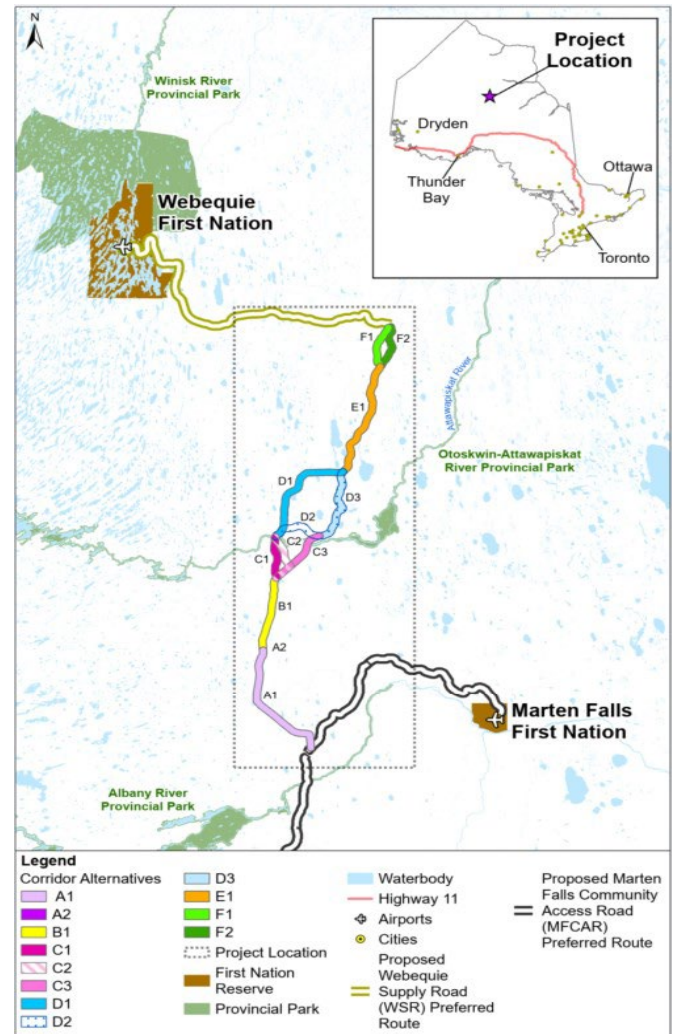

Marten Falls First Nation (MFFN) and Webequie First Nation (WFN) (the Proponent) are conducting a coordinated Environmental Assessment/Impact Assessment (EA/IA) under the Ontario *Environmental Assessment Act*, and the federal *Impact Assessment Act* for the design, construction and operation/maintenance of a proposed all-season multi-use road, Northern Road Link (the Project). The Project is located between the proposed Marten Falls First Nation Community Access Road (MFCAR) and the proposed Webequie Supply Road (WSR) and would connect the Ring of Fire mineral deposits in the McFaulds Lake area to the highway network via the MFCAR.

#### THE PROCESS

The Proponent is currently focusing on the selection of the preferred corridor for the Project, baseline reporting, and the Indigenous Knowledge Program as part of the EA/IA. A variety of consultation and engagement activities have been ongoing throughout the process including Open Houses, a series of livestreams/radio programs that explain various aspects of the Project, monthly newsletters, and community visit invitations.

#### OPEN HOUSE

This will be the fifth Open House for the Project. The Open Houses are held at key points in the EA/IA process and provide opportunities to learn about the proposed Project, ask questions and provide input. The upcoming Open House will focus on the selection of the preferred corridor. The Open House will start with a 20–30-minute presentation on project updates, followed by time to visit different stations to discuss different topics and speak to Project team members. To further present information, there will be a 3D model and an interactive digital model of the proposed all-season road for viewing.

There will be multiple opportunities during the Open House to ask questions and provide comments. Feedback can also be provided via surveys during and after the Open House. The Open House will be livestreamed through the project website: [www.northernroadlink.ca](http://www.northernroadlink.ca). In addition, a recording of the presentation will be posted to the Project website. The information shared with the Proponent will be used to inform the EA/IA.
